About

Information Technology student with a strong foundation in problem solving and an interest in developing practical digital solutions. Passionate about exploring emerging technologies and applying creative thinking to real-world challenges.

Education

B.Tech Information Technology

Madras Institute of Technology-Anna University

2023 – Present

CGPA: 7.3 / 10

HSC (12th Grade)

Sri Jeayandra Saraswathi School

2022 – 2023

95.5%

Technical Skills

Programming C++, Python, Java, JavaScript

Web Technologies HTML, CSS, React.js, Spring Boot

Databases SQL, SQLite, MySQL

Tools Git, GitHub, VS Code, Microsoft Excel

Course Highlights Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Operating Systems (OS), Database Management Systems (DBMS), Machine Learning (ML), Image Processing (IP), Generative AI

Projects

AI Tools Exploration Project

[GitHub](#) | [Video](#)

Generative AI / AI Productivity Tools / Prompt Engineering

- Explored and practically applied 10+ AI tools across content creation, research, productivity, design, and automation use cases.
- Evaluated the capabilities and practical applications of different AI tools through hands-on tasks and documented their outputs.

Online Voting System

[GitHub](#)

Java, Spring Boot, Spring MVC, MySQL, Thymeleaf, HTML, CSS, JavaScript

- Developed a secure web-based online voting system using Spring Boot with user registration, authentication, vote casting, and live election result tracking.
- Implemented Spring Data JPA with MySQL for efficient database management and session-based authentication.

E-Commerce Grocery Website

[GitHub](#) | [Video](#)

HTML, CSS, JavaScript

- Developed a responsive grocery e-commerce website with an intuitive interface for product browsing and online shopping.
- Implemented interactive product displays and shopping cart functionality using JavaScript, ensuring a smooth and user-friendly experience.

Zero Distraction Learning Companion

[GitHub](#)

Python, Flask, OpenCV, MediaPipe, HTML, CSS, JavaScript

- Developed an AI-powered learning companion that uses computer vision to detect drowsiness, gaze direction, head pose, and off-screen distractions in real time.
- Built a Flask-based web application with personalized performance tracking through an interactive interface.

Professional Development

Certifications

Python for Data Science – NPTEL

[Certificate](#)

Elite Score: 56%

Build your Own Responsive Website–CCBP 4.0 Academy(Nxtwave)

[Certificate](#)

Technologies: Bootstrap, Flexbox

NxtWave CCBP 4.0 Academy

CCBP 4.0 – Industry-Oriented Technical Program

- Developing practical skills in programming and problem solving.
- Learning web development and database technologies.
- Strengthening technical and software development skills through hands-on learning.

Skills & Interests

Interests: Full-Stack Development, Artificial Intelligence, Generative AI, Software Development

Soft Skills: Problem Solving, Critical Thinking, Team Collaboration, Adaptability
